

LIGHT & POWER ELECTRICAL PACKAGES

2kW wall mounted convector heater

“RCD” protected “Consumer Unit”

External connection box ready for on-site connection by qualified electrician

Benefits and Uses

- Makes your container “ready” to use as an office, workshop or hobby space (following on-site connection and testing by a qualified electrician).
- Flexible specifications possible to suit your requirements.
- Items fitted without piercing the container skin with screws/rivets (avoiding risk of future leaks).

Discuss your power (amperage) requirements with your electrician to be sure your chosen specification meets your requirements.
